

SONALI RAWAT

GIS Engineer | Utility GIS | Power Distribution GIS | GE Smallworld Electric Office
Delhi NCR, India | +91-8954077127 | sonalirawat912@gmail.com | linkedin.com/in/sonali-rawat-464930215

PROFESSIONAL SUMMARY

GIS Engineer with 3+ years of experience in Utility GIS, Power Distribution GIS, and Geospatial Data Management. Hands-on experience with GE Smallworld Electric Office, ArcMap, ArcGIS Pro, and QGIS, specializing in LT/HT network digitization, electrical asset mapping, feeder realignment, network reorganization, topology, connectivity, and GIS quality control. Experienced in maintaining accurate spatial and attribute data for utility and municipal GIS projects, with a strong focus on data quality, network consistency, and timely project delivery.

CORE COMPETENCIES

Utility & Power Distribution GIS:

LT & HT Network Digitization (0.433 kV & 11 kV) | Power Distribution GIS | Electrical Asset Mapping | Feeder Realignment | Network Reorganization | Network Topology | Connectivity Management | RMU & Feeder Pillar Mapping | Composite Units (CU) Configuration

GIS Software & Platforms:

GE Smallworld Electric Office | ArcMap | ArcGIS Pro | QGIS | ERDAS IMAGINE | Google Earth Pro

GIS Operations & Analysis:

Spatial Analysis | Shapefiles | GeoJSON | Georeferencing | Vector Analysis | LULC Classification | KML Integration | Attribute Data Management | GIS Quality Control | Topology Validation | Data Validation

Integration & Tools:

GIS-MIS Integration | MS Excel

PROFESSIONAL EXPERIENCE

GIS Digitizer / Utility GIS Engineer

Noida Power Company Limited (NPCL) via TeamLease India | Aug 2024 – Present

- Manage GIS layers in GE Smallworld Electric Office for LT (0.433 kV) and HT (11 kV) electrical distribution networks.
- Digitize and maintain electrical assets including feeder pillars, RMUs, cables, conductors, poles, and service connections.
- Perform feeder realignment, network reorganization, asset reconfiguration, and connectivity corrections.
- Configure Composite Units (CUs) to maintain standardized and consistent utility network representation.
- Perform GIS quality control, topology validation, and spatial/attribute data verification to maintain network data integrity and accuracy.

GIS Engineer

Neogeoinfo Technologies Limited | May 2023 – Jul 2024

- Supported Property Taxation Management System (PTMS) GIS projects for municipal government clients.
- Performed GIS operations using ArcMap, ArcGIS Pro, and QGIS, including topology creation, shapefile and GeoJSON handling, ARV identification/mapping, and attribute management.
- Supported map creation, spatial data processing, and KML integration for project deliverables.
- Conducted GIS quality control and design validation to ensure spatial and attribute data accuracy.
- Supported GIS-MIS integration for spatial data reporting and cross-functional data sharing.

EDUCATION

PG Diploma in Geoinformatics and Remote Sensing

Swastik Edustart, New Delhi | 2023

Masters in Geography

Kumaon University, Nainital | 2022
